ECITB CCNSG Safety Passport Test Only Renewal ZRF017

Course Description

The CCNSG Test-only for Renewal is an alternative option to the CCNSG Renewal Course with no classroom workshop elements.

60-70 min Computer Based Test Only

Who Should Attend?

This test is designed for anyone working within the Oil and Gas, Power Generation, Petrochemical, Engineering, Installation, Maintenance and Renewables sectors and is also useful for Managers, Supervisors and Operatives including contractor personnel. The CCNSG Test-Only for Renewal route is only for those who already hold a valid CCNSG Safety Passport, but whose card is due for renewal.

Delegates must complete 60 online questions which cover the syllabus of the one-day renewal course. The pass mark for the online test is 80%; delegates who do not achieve the required pass mark will be permitted one further re-sit. If the delegate fails to achieve the pass mark on the re-sit then the one-day renewal course will have to be taken. *No training or assistance will be given at the test session so delegates must ensure they have the required health and safety knowledge in preparation for the test.

Upon successful completion, the candidate will be issued with certification by the ECITB, valid for 3 years.

Test taken under strict exam ECITB led conditions on an individual basis.
